Bibliography of Artists

Professor He Dong was born in Tianjin City of China in 1961. He graduated from The Tianjin Academy of Fine Arts in 1982. As a renowned Chinese Artists and Calligrapher, he is particularly famous internationally for his paintings on the people, life styles, native sceneries and culture of Tibet. He is now the President of the Chinese Painting & Calligraphy Magazine, Member of the China Artists Association, Professor and Instructor of Post Graduates of the Tianjin Academy of Fine Arts, Chief Officer of the Organising Committee of the International Forum on the Development of Paintings and Calligraphy in China and the Vice President of Tianjin Youth Artists Association.

In the past few years, Professor He Dong visited Tibet many times to experience the Yunnan Tibetan Plateau and the lives and culture of the people there. The Art pieces [Tibetan Plateau – Melody from my Heart] are indeed the products of the impressive water ink outlines, the fusion of the eye-catching green colour and black ink, the profound technique and skill and keen observation of the artist. They are the outcry from the artist's heart of his true sentiments and feelings toward the Tibetan, their images and their visions.
